

Kyle Anderson Receives 2016 Joseph Lieber Memorial Cooperative Scholarship

October 11, 2016 (MANHATTAN, Kan.) – Kyle Anderson, Abilene, Kansas, a senior in feed science and management at Kansas State University, has been awarded the Joseph Lieber Memorial Cooperative Scholarship through the Arthur Capper Cooperative Center in the Department of Agricultural Economics at Kansas State University.

Kyle is active in the Apha Mu Honorary Grain Science Society, Feed Science Club, FarmHouse Fraternity and the Faith Evangelical Free Church. He participated in an international agricultural tour to Costa Rica and received Phi Kappa Phi Sophomore Honors. Kyle was a previous recipient of the Otis and Mary Lee Molz Cooperative Scholarship. In addition to school, he works as a feed mill operator in the Department of Animal Science and Anderson Farms, the family farming operation. Kyle has completed internships with Kent Nutrition Group and North Central Kansas Cooperative. After his May 2017 graduation, Kyle hopes to gain employment at a feed mill or grain storage facility. The Anderson family is affiliated with DS&O Electric, Tri-County Telephone, Great Plains Credit Union and Agri Trails Cooperative.

The Joseph Lieber Memorial Cooperative Scholarship, established in tribute of the late Joe Lieber and his enthusiasm for cooperative education, has awarded over \$58,000 in scholarships since its establishment in 2005. Lieber contributed to cooperative education and development for many years while serving as president of the Kansas Cooperative Council and was a respected leader in the co-op community.

“This scholarship was established by Joseph Lieber’s family and the Kansas Cooperative Council to perpetuate the memory and contribution of Joe Lieber to the development and leadership of cooperative businesses,” states Professor Brian Briggeman, director of the Arthur Capper Cooperative Center. “It’s also to provide significant financial assistance to eligible students enrolled in educational programs emphasizing these areas of study.”

To be eligible for Joseph Lieber Memorial Cooperative Scholarship, a student must be either a junior or senior in K-State’s College of Agriculture at the time the scholarship is received. The recipient must also be affiliated as a member or as a child or dependent of a member of a Kansas agricultural marketing, supply, or service cooperative that is a member of the Kansas Cooperative Council.

The Joseph Lieber Memorial Cooperative Scholarship was funded by contributions made to the Center's endowment fund with the K-State Foundation. Contributions have been made by the Kansas Cooperative Council and the Lieber family and friends in the cooperative community. "Additional contributions by those who want to honor the memory of Joseph Lieber and support the purposes of the scholarship are welcome," Dr. Briggeman said. They should be made payable to "KSU Foundation/ACCC/ Lieber" and sent to the Arthur Capper Cooperative Center, Department of Agricultural Economics, 305 Waters Hall, Kansas State University, Manhattan, KS 66506.

About the Arthur Capper Cooperative Center

The Arthur Capper Cooperative Center provides research-based information, education, and assistance to people with an interest in cooperative businesses, including cooperative members, directors, managers, and employees. The Center also works with students and faculty at educational institutions, the general public, and public officials as well as owners, directors, managers, and employees of agribusinesses. Further information can be obtained about this scholarship or about establishing additional scholarships by emailing Brian Briggeman at bbrigg@ksu.edu or visiting the Arthur Capper Cooperative Center website at <http://accc.k-state.edu/>.

###

K-State Research and Extension is a short name for the Kansas State University Agricultural Experiment Station and Cooperative Extension Service, a program designed to generate and distribute useful knowledge for the well-being of Kansans. Supported by county, state, federal and private funds, the program has county Extension offices, experiment fields, area Extension offices and regional research centers statewide. Its headquarters is on the K-State campus in Manhattan.
